Subject: Spring Update

“The creation of a thousand forests is in one acorn.” -- Ralph Waldo Emerson

For the spring of 2018 we have been researching, planning, and budgeting for yet another planting! In this season we will provide residents fresh new trees to not only decorate their yard, but also giving our streets and parkways personality and pulchritude. In total we've planned to put in six different types of trees at 23 different addresses here in town. After having great results with Doty Nurseries from the fall we are yet again going to be doing business with the nursery and will be receiving a total of 30 trees totaling roughly \$7,002.00. In the next few weeks we will be transporting trees and along with the help of Tentinger Landscaping planting them in the various locations. With the 30 trees along with the ones we planted in fall, we're also gearing up and taking precautions to help them stay healthy as well. A plan is being set up along with dedicated manpower and time to provide all 53 trees with a regular watering to help them get the nourishment they need for the upcoming months.
