*\*Rates are subject to change.*

*\*\*The Minimum Monthly Charge for accounts outside Elburn corporate limits is the rate per 100 cu ft. plus the capital improvement charge plus the debt service charge.*

Utility bills are mailed on or about the first day of each month. The charge for water and sewer service is based on the volume of water used each month measured in 100 cubic feet. 100 cubic feet = 748 gallons. The water bill counts a full 748 gallons of water as a Unit. In addition to the volume charge, a flat fee for capital improvements and debt service is assessed each month. The flat fee is not based on the volume of water used.

### Late Fees

The late fee for any portion of a bill not paid by the due date will be 10%.
